

## AWADHESH PRATAP SINGH UNIVERSITY, REWA (MP)

### ***Procedures and policies for maintaining and utilizing physical, academic and support facilities***

\*The campus of the University is spread over around 258 acres of land. The University has a number of buildings constructed with state-of-art technologies consisting of energy efficient and sustainable building material. The University is consisting of teaching departments, administrative office, laboratories with sports and physical education amenities. These essential services are considered as back bone of academic activities. In addition to this infra-structure, we have two hostels – one for boys and one for girls. Apart from this, there is a guesthouse, a faculty guesthouse, residential quarters for faculty and staff members.

\*The responsibility of Engineering Section is to monitor periodic maintenance of the amenities available in the University campus. The Section has civil and electrical engineers assignment also. This section is also responsible for painting, civil repairs and other maintenance as per requirement of the University. There are budgetary provisions made for the above activities. Engineering Section also undertakes periodic survey of the various infrastructures on the campus and takes proactive steps to ensure high standards of maintenance.

\*The sports facilities in the campus are actively managed by the Department of Physical Education, which is headed by sports-inclined faculty members and his team is headed by the Director, Dept of Physical Education. All regular maintenance matters are internally managed by the Department, while all major construction works are addressed by the Engineering Section.

\*Cleaning of buildings is carried out daily by outsourced housekeeping team, who works under the supervision of University Administration. While the Security of University campus is done by the Third-Party Security Agency.
